

Sally "AKA" Boss Lady,

We want to thank you so very much for all you have done for our company. When Alex and I started this company back in 2018, we had no idea what to do or how to get our business name out there so people that needed our services could find and choose our company. We did not have a website, logo, or anything we needed to get started. We had no idea where to start or who to go to. This was very scary and overwhelming.

We had started to google what steps we needed to take, and we were so lost in what to do and who to trust. We had been quoted anywhere from 7,000 to 14,000 and up to get off the ground and get marketing going for our new business. Ouch, this was a large cost for a new company.

It was a blessing to have met Sally Owner and Operator of Bossy Lady Consulting. She was so humble, knowledgeable, and willing to help in any way she could. She has a gift and a passion for her business and truly looks out for the best of the company she is working with. Not only was Sally experienced with many years in the marketing industry she was results-driven at a price we could afford.

Whether you are a new start-up business, or an established business that needs some help Boss Lady is who you want. She knows where your money will be best spent to get the most out of what you need. She teaches you along the way and works with you. No more fear regarding if you are just being sold to, or if you are just throwing money down the drain with little to no results. Sally gets the job done!

As a business owner I need to know where my money is going and the results I am getting. I need someone that will be truthful in what we need/should be doing. I need someone that is willing to expand their knowledge and training to become even better, since things are constantly changing out there. I need someone that will look out for the best interest of my company and customers, and we found it.

Do you want the best? Stop looking and call Sally with Boss Lady you will not regret it!

Thank you again Sally for all you have done and do for our company.

Jennifer Alcorn
